

GHDonline is where healthcare implementers share proven practices, connect with colleagues, and find resources they need to improve health outcomes in resource-limited settings.

Building bridges
between healthcare
implementers and
organizations across the globe

More than **2,400 members from 850 organizations in 119 countries** are exchanging information and lessons learned on GHDonline.

6 public communities guided by expert moderators:

- Adherence & Retention
- TB Infection Control
- Drug Resistant TB
- Health IT
- Global Health Nursing & Midwifery
- Malaria Treatment & Prevention

Strengthening bonds
within organizations and
existing networks

GHDonline hosts **20 private communities** designed for organizations and initiatives, including a community that enables Partners In Health physicians in Rwanda to consult with Boston-based specialists on difficult clinical cases.

Leveraging partnerships
to democratize access to
critical information and tools

- UpToDate, Inc.
- PATH
- Centre for Infectious Disease Research in Zambia
- Commission Nationale de Lutte Contre le SIDA, Rwanda
- Journal Watch
- HINARI

“We as architects are happy to listen in and get an insight on the subject matter and be able to relate with our area of expertise. Again, thanks to your discussions we are able to understand the seriousness of the issues.”
[Gobe Gaotlolwe, Architect, Ministry of Health, Botswana, October 2008](#)

“GHDonline is the closest thing I have seen yet to a working group with the range and ability to create/refine a standard and develop a universal tool.”
[Om Goeckermann, Freelance, U.S.A., June 2009](#)

“With GHDonline, the opportunity starts now! If I start an initiative in Pakistan in which I want a wider community of people who understand global health to join in, it would just make sense for me to go on GHDonline.”
[Lubna Samad, Pediatric Surgeon, Indus Hospital, Pakistan, GHE Program alum, July 2009](#)

Why join GHDonline?

By joining GHDonline, you will become part of a unique, collaborative platform developed by and for global health implementers.

Discussions

- Engage in real-time problem-solving with peers
- Enrich your practice by sharing your experience, challenges, and lessons from the field
- Discussions are archived and fully searchable

Resources

- Exchange critical knowledge and tools by uploading documents and links
- Resources are fully searchable

Expert Moderators, all leaders in their field, guide the communities

- They help keep discussions and resources relevant and up-to-date
- They encourage more participation and build bridges between individuals and organizations

Email

- Receive instant notifications for activity in your communities
- Start and contribute to discussions via email: great functionality for busy professionals and in areas with unreliable Internet connectivity

Founding Organizations
